A. Audit Approach		

The contents of this report relate only to the matters which have come to our attention, which we believe need to be reported to you as part of our audit planning process. It is not a comprehensive record of all the relevant matters, which may be subject to change, and in particular we cannot be held responsible to you for reporting all of the risks which may affect the Authority or all weaknesses in your internal controls. This report has been prepared solely for your benefit and should not be quoted in whole or in part without our prior written consent. We do not accept any responsibility for any loss occasioned to any third party acting, or refraining from acting on the basis of the content of this report, as this report was not prepared for, nor intended for, any other purpose.

Grant Thornton UK LLP is a limited liability partnership registered in England and Wales: No.OC307742. Registered office: 30 Finsbury Square, London, EC2A 1AG. A list of members is available from our registered office. Grant Thornton UK LLP is authorised and regulated by the Financial Conduct Authority. Grant Thornton UK LLP is a member firm of Grant Thornton International Ltd (GTIL). GTIL and the member firms are not a worldwide partnership. Services are delivered by the member firms. GTIL and its member firms are not agents of, and do not obligate, one another and are not liable for one another's acts or omissions.

Introduction & headlines

Purpose

This document provides an overview of the planned scope and timing of the statutory audit of Staffordshire Commissioner Fire and Rescue Authority ('the Authority') for those charged with governance.

Respective responsibilities

The National Audit Office ('the NAO') has issued a document entitled Code of Audit Practice ('the Code'). This summarises where the responsibilities of auditors begin and end and what is expected from the audited body. Our respective responsibilities are also set out in the Terms of Appointment and Statement of Responsibilities issued by Public Sector Audit Appointments (PSAA), the body responsible for appointing us as auditor of Staffordshire Commissioner Fire and Rescue Authority. We draw your attention to both of these documents on the <u>PSAA website</u>.

Scope of our audit

The scope of our audit is set in accordance with the Code and International Standards on Auditing (ISAs) (UK). We are responsible for forming and expressing an opinion on the :

- Authority's financial statements that have been prepared by management with the oversight of those charged with governance (the Police Fire Crime Commissioner); and
- Value for Money arrangements in place at the Authority for securing economy, efficiency and effectiveness in your use of resources.

The audit of the financial statements does not relieve management or the Police Fire Crime Commissioner (PFCC) of your responsibilities. It is the responsibility of the Authority to ensure that proper arrangements are in place for the conduct of its business, and that public money is safeguarded and properly accounted for. We have considered how the Authority is fulfilling these responsibilities.

Our audit approach is based on a thorough understanding of the Authority's business and is risk based. We will be using our new audit methodology and tool, LEAP, for the 2018/19 audit. It will enable us to be more responsive to changes that may occur in your organisation.

Significant risks`	Those risks requiring special audit consideration and procedures to address the likelihood of a material financial statement error have been identified as:		
	The revenue cycle includes fraudulent transactions. This risk has been rebutted, please see page 5 for consideration of this risk.		
	 Management override of controls per ISA 240. see page 5 for our responses. 		
	Actuarial valuation of pension liability.		
	We will communicate significant findings on these areas as well as any other significant matters arising from the audit to you in our Audit Findings (ISA 260) Report.		
Materiality	We have determined planning materiality to be £975k (PY £957k) for the Authority, which equates to 2% of your prior year gross expenditure for the year. We are obliged to report uncorrected omissions or misstatements other than those which are 'clearly trivial' to those charged with governance. Clearly trivial has been set at £49k (PY £47k).		
Value for Money arrangements	Our risk assessment regarding your arrangements to secure value for money have identified the following VFM significant risk:		
	 Informed Decision Making - Impact of the new governance arrangements introduced during 2018/19 		
Audit logistics	Our interim visits will take place in February and March and our final visit will take place in June. Our key deliverables are this Audit Plan and our Audit Findings Report. Our audit approach is detailed in Appendix A.		
	Our fee for the audit will be £23,646 (PY: £30,709) for the Authority, subject to the Authority meeting our requirements set out on page 13. It is possible that we will need to vary the fee from the scale fee to take account of new accounting standards and any additional accounts work or disclosures associated with the change in governance over the fire service.		
Independence	We have complied with the Financial Reporting Council's Ethical Standard and we as a firm, and each covered person, confirm that we are independent and are able to express an objective opinion on the financial statements		

Key matters impacting our audit

Factors

The wider economy and political uncertainty

Local Government funding continues to be stretched with increasing cost pressures and demand from residents. Staffordshire Commissioner Fire & Rescue Authority's net revenue budget for 2018/19 is £40.2m, comprising of core funding from the Government (£14.8m) and precepts collected through Council Tax (£25.4m). As part of the four year funding settlement, SCFRA's core funding reduced by £4 million, (22% of the 2015/16 core funding) over the four year period to 2019/20. The Fire Authority therefore has to manage its pay and other cost pressures within this reducing funding base.

At a national level, the government continues its negotiation with the EU over Brexit, and future arrangements remain clouded in uncertainty. The Authority will need to ensure that it is prepared for all outcomes, including in terms of any impact on contracts, on service delivery and on its support for local people and businesses.

Changes to the CIPFA 2018/19 Accounting Code

The most significant changes relate to the adoption of:

- IFRS 9 Financial Instruments which impacts on the classification and measurement of financial assets and introduces a new impairment model.
- IFRS 15 Revenue from Contracts with Customers which introduces a five step approach to revenue recognition.

We do not expect these changes to have a significant impact on the Authority, however SCFRA will need to have considered these changes to understand their effect on the Authority.

Changes in governance

Stoke on Trent and Staffordshire Fire & Rescue Authority were abolished on 1 August 2018 and a new body was created, Staffordshire Commissioner Fire & Rescue Authority. The Authority remains a body sole but governance has now passed to the Police Fire and Crime Commissioner, with the intended benefits cited as being to: .

- Allow Fire and Rescue to work more effectively with other Staffordshire bodies to improve services for local people.
- Save public money by sharing corporate services such as human resources, finance and IT.

These arrangements are still being embedded into the service.

Our response

- Our initial value for money risk assessment has not identified your arrangements for managing and reporting your financial resources, and the impact of Brexit, as a significant risk.
- We will keep you informed of changes to the financial reporting requirements for 2018/19 through on-going discussions and invitations to our technical update workshops.
- As part of our opinion on your financial statements, we will consider whether your financial statements reflect the financial reporting changes in the 2018/19 CIPFA Code.
- We will review the revised governance arrangements in place as part of our VFM work for 2018/19.

Significant risks identified

Significant risks are defined by ISAs (UK) as risks that, in the judgement of the auditor, require special audit consideration. In identifying risks, audit teams consider the nature of the risk, the potential magnitude of misstatement, and its likelihood. Significant risks are those risks that have a higher risk of material misstatement.

Risk	Reason for risk identification	Key aspects of our proposed response to the risk
The revenue cycle includes fraudulent transactions	Under ISA (UK) 240 there is a rebuttable presumed risk that revenue may be misstated due to the improper recognition of revenue. This presumption can be rebutted if the auditor concludes that there is no risk of material misstatement due to fraud relating to revenue recognition.	Having considered the risk factors set out in ISA240 and the nature of the
Management over-ride of controls	Under ISA (UK) 240 there is a non-rebuttable presumed risk that the risk of management over-ride of controls is present in all entities. We therefore identified management override of control, in particular journals, management estimates and transactions outside the course of business as a significant risk, which was one of the most significant assessed risks of material misstatement.	We will: evaluate the design effectiveness of management controls over journals analyse the journals listing and determine the criteria for selecting high risk unusual journals test unusual journals recorded during the year and after the draft accounts stage for appropriateness and corroboration gain an understanding of the accounting estimates and critical judgements applied made by management and consider their reasonableness with regard to corroborative evidence

evaluate the rationale for any changes in accounting policies, estimates

or significant unusual transactions.

Significant risks identified

Risk	Reason for risk identification	Key aspects of our proposed response to the risk
Valuation of the pension fund net	The Authority's pension fund net liability, as reflected in its balance sheet as the net defined benefit liability, represents a significant estimate in the financial statements.	We will:
liability		 update our understanding of the processes and controls put in place by management to ensure that the Authority's pension fund net liability is no materially misstated and evaluate the design of the associated controls;
	The pension fund net liability is considered a significant estimate due to the size of the numbers involved (£455 million in the Authority's 17/18 balance sheet) and the sensitivity of the estimate	evaluate the instructions issued by management to their management expert (an actuary) for this estimate and the scope of the actuary's work;
	to changes in key assumptions. We therefore identified valuation of the Authority's pension fund net liability as a significant risk, which was one of the most significant assessed risks of material misstatement.	 assess the competence, capabilities and objectivity of the actuary who carried out the Authority's pension fund valuations;
		 assess the accuracy and completeness of the information provided by the Authority to the actuaries to estimate the liabilities;
		 test the consistency of the pension fund asset and liability and disclosures in the notes to the core financial statements with the actuaria report from the actuaries;
		undertake procedures to confirm the reasonableness of the actuarial assumptions made by reviewing the report of the consulting actuary (as auditor's expert) and performing any additional procedures suggested within the report.

We will communicate significant findings on these areas as well as any other significant matters arising from the audit to you in our Audit Findings Report in July 2019.

Other matters

Other work

In addition to our responsibilities under the Code of Practice, we have a number of other audit responsibilities, as follows:

- We read your Narrative Report and Annual Governance Statement to check that they are consistent with the financial statements on which we give an opinion and consistent with our knowledge of the Authority.
- We carry out work to satisfy ourselves that disclosures made in your Annual Governance Statement are in line with the guidance issued by CIPFA.
- We carry out work on your consolidation schedules for the Whole of Government Accounts process in accordance with NAO group audit instructions.
- We consider our other duties under legislation and the Code, as and when required, including:
 - Giving electors the opportunity to raise questions about your 2018/19 financial statements, consider and decide upon any objections received in relation to the 2018/19 financial statements;
 - issue of a report in the public interest or written recommendations to the Authority under section 24 of the Act, copied to the Secretary of State.
 - Application to the court for a declaration that an item of account is contrary to law under Section 28 or for a judicial review under Section 31 of the Act; or
 - Issuing an advisory notice under Section 29 of the Act.
- We certify completion of our audit.

Other material balances and transactions

Under International Standards on Auditing, "irrespective of the assessed risks of material misstatement, the auditor shall design and perform substantive procedures for each material class of transactions, account balance and disclosure". All other material balances and transaction streams will therefore be audited. However, the procedures will not be as extensive as the procedures adopted for the risks identified in this report.

Going concern

As auditors, we are required to "obtain sufficient appropriate audit evidence about the appropriateness of management's use of the going concern assumption in the preparation and presentation of the financial statements and to conclude whether there is a material uncertainty about the Authority's ability to continue as a going concern" (ISA (UK) 570). We will review management's assessment of the going concern assumption and evaluate the disclosures in the financial statements.

Materiality

The concept of materiality

The concept of materiality is fundamental to the preparation of the financial statements and the audit process and applies not only to the monetary misstatements but also to disclosure requirements and adherence to acceptable accounting practice and applicable law. Misstatements, including omissions, are considered to be material if they, individually or in the aggregate, could reasonably be expected to influence the economic decisions of users taken on the basis of the financial statements.

Materiality for planning purposes

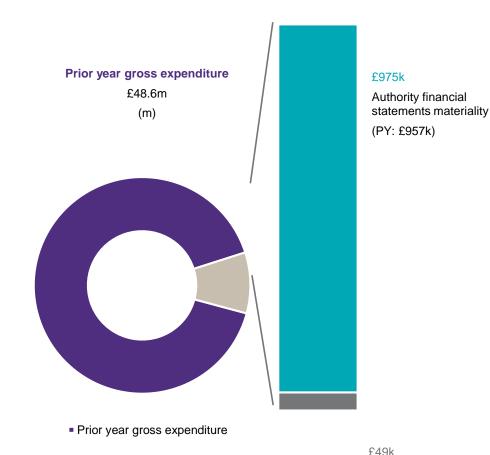

We propose to calculate financial statement materiality based on a proportion of the gross expenditure of the Authority for the financial year. In the prior year we used the same benchmark. We have determined planning materiality (the financial statements materiality determined at the planning stage of the audit) to be £975k (PY £957k), which equates to 2% of your 2017/18 gross expenditure. We design our procedures to detect errors in specific accounts at a lower level of precision. Materiality has been reduced for remuneration disclosures to £100k due to its sensitive nature and public interest.

We reconsider planning materiality if, during the course of our audit engagement, we become aware of facts and circumstances that would have caused us to make a different determination of planning materiality

Matters we will report to the Audit Committee

Whilst our audit procedures are designed to identify misstatements which are material to our opinion on the financial statements as a whole, we nevertheless report to the Audit Committee any unadjusted misstatements of lesser amounts to the extent that these are identified by our audit work. Under ISA 260 (UK) 'Communication with those charged with governance', we are obliged to report uncorrected omissions or misstatements other than those which are 'clearly trivial' to those charged with governance. ISA 260 (UK) defines 'clearly trivial' as matters that are clearly inconsequential, whether taken individually or in aggregate and whether judged by any quantitative or qualitative criteria. In the context of the Authority, we propose that an individual difference could normally be considered to be clearly trivial if it is less than £49k (PY £47k).

If management have corrected material misstatements identified during the course of the audit, we will consider whether those corrections should be communicated to the Police Fire and Crime Commissioner to assist them in fulfilling their governance responsibilities.

(PY: £47k)

Value for Money arrangements

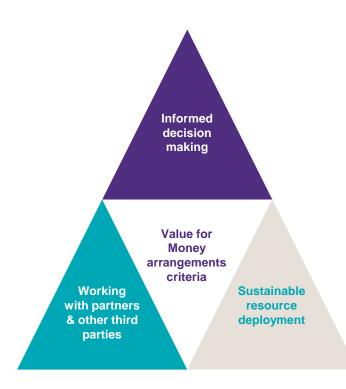

Background to our VFM approach

The NAO issued its guidance for auditors on Value for Money work in November 2017. The guidance states that for Local Government bodies, auditors are required to give a conclusion on whether the Authority has proper arrangements in place to secure value for money.

The guidance identifies one single criterion for auditors to evaluate:

"In all significant respects, the audited body takes properly informed decisions and deploys resources to achieve planned and sustainable outcomes for taxpayers and local people."

This is supported by three sub-criteria, as set out below:

Significant VFM risks

Those risks requiring audit consideration and procedures to address the likelihood that proper arrangements are not in place at the Authority to deliver value for money.

Informed Decision Making

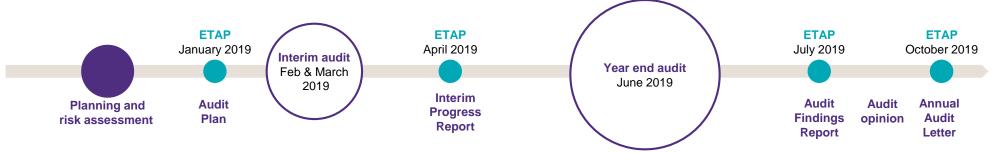

Acting in the Public Interest, through demonstrating and applying the principles and values of sound governance

Staffordshire Commissioner Fire & Rescue Authority was created by statute on 1 August 2018. Governance has now transferred to the Police Fire and Crime Commissioner.

We will review the progress of the changes to ensure that the application of the revised governance model continues to ensure the delivery of services in the most relevant, efficient and effective ways for its communities.

This change in governance represents a risk under the sub-criteria of Informed decision making.

Audit logistics, team & fees

Mark Stocks, Engagement Lead

Mark's role will be to lead our relationship with you. He will take overall responsibility for the delivery of a high quality audit, meeting the highest professional standards and adding value to the Authority. He will be the main point of contact for the Chief Fire Officer and Police Fire and Crime Commissioner. He will share his wealth of knowledge and experience across the sector providing challenge and sharing good practice

Lorraine Noak, Audit Manager

Lorraine will work with senior members of the finance team ensuring testing is delivered and any accounting issues are addressed on a timely basis. She will attend Ethics and Transparency Panel meetings and supervise Lisa in leading the on-site team. Lorraine will undertake reviews of the team's work and draft clear, concise and understandable reports.

Lisa Morrey, Audit Incharge

Lisa's role will be to be the day to day contact for the Authority finance staff. She will take responsibility for ensuring there is effective communication and understanding by the finance team of audit requirements. She will lead the on-site team and will monitor deliverables, manage our query log ensuring that any significant issues and adjustments are highlighted to management as soon as possible

Audit fees

The planned audit fees are £23,646 (PY: £30,709) for the financial statements audit completed under the Code, which are inline with the scale fee published by PSAA.

In setting your fee, we have assumed that the scope of the audit, and the Authority and its activities, do not significantly change. It is therefore possible that we will need to vary the fee from the scale fee to take account of new accounting standards (IFRS 9 and IFRS 15) and any additional accounts work or disclosures associated with the change in governance over the fire service.

Our requirements

To ensure the audit is delivered on time and to avoid any additional fees, we have detailed our expectations and requirements in the following section 'Early Close'. If the requirements detailed overleaf are not met, we reserve the right to postpone our audit visit and charge fees to reimburse us for any additional costs incurred.

Early close

Meeting the 31 July audit timeframe

In the prior year, the statutory date for publication of audited local government accounts was brought forward to 31 July, across the whole sector. This was a significant challenge for local authorities and auditors alike. For authorities, the time available to prepare the accounts was curtailed, while, as auditors we had a shorter period to complete our work and faced an even more significant peak in our workload than previously.

The Authority successfully met the early close deadline for 2017/18 and again we have carefully planned how we can make the best use of the resources available to us during the final accounts period. As well as increasing the overall level of resources available to deliver audits, we have focused on:

- · bringing forward as much work as possible to interim audits
- starting work on final accounts audits as early as possible, by agreeing which authorities will have accounts prepared significantly before the end of May
- · seeking further efficiencies in the way we carry out our audits
- working with you to agree detailed plans to make the audits run smoothly, including early agreement of audit dates, working paper and data requirements and early discussions on potentially contentious items.

We are satisfied that, if all these plans are implemented, we will be able to complete your audit and those of our other local government clients in sufficient time to meet the earlier deadline.

Client responsibilities

Where individual clients do not deliver to the timetable agreed, we need to ensure that this does not impact on audit quality or absorb a disproportionate amount of time, thereby disadvantaging other clients. We will therefore conduct audits in line with the timetable set out in audit plans (as detailed on page 10). Where the elapsed time to complete an audit exceeds that agreed due to a client not meetings its obligations we will not be able to maintain a team on site. Similarly, where additional resources are needed to complete the audit due to a client not meeting their obligations we are not able to guarantee the delivery of the audit by the statutory deadline. Such audits are unlikely to be re-started until very close to, or after the statutory deadline. In addition, it is highly likely that these audits will incur additional audit fees.

Our requirements

To minimise the risk of a delayed audit or additional audit fees being incurred, you need to ensure that you:

- produce draft financial statements of good quality by the deadline you have agreed with us, including all notes, the narrative report and the Annual Governance Statement
- ensure that good quality working papers are available at the start of the audit, in accordance with the working paper requirements schedule that we have shared with you
- ensure that the agreed data reports are available to us at the start of the audit and are reconciled to the values in the accounts, in order to facilitate our selection of samples
- ensure that all appropriate staff are available on site throughout (or as otherwise agreed)
 the planned period of the audit
- respond promptly and adequately to audit queries.

In return, we will ensure that:

- the audit runs smoothly with the minimum disruption to your staff
- you are kept informed of progress through the use of an issues tracker and weekly meetings during the audit
- we are available to discuss issues with you prior to and during your preparation of the financial statements.

Independence & non-audit services

Auditor independence

Ethical Standards and ISA (UK) 260 require us to give you timely disclosure of all significant facts and matters that may bear upon the integrity, objectivity and independence of the firm or covered persons relating to our independence. We encourage you to contact us to discuss these or any other independence issues with us. We will also discuss with you if we make additional significant judgements surrounding independence matters.

We confirm that there are no significant facts or matters that impact on our independence as auditors that we are required or wish to draw to your attention. We have complied with the Financial Reporting Council's Ethical Standard and we as a firm, and each covered person, confirm that we are independent and are able to express an objective opinion on the financial statements.

We confirm that we have implemented policies and procedures to meet the requirements of the Financial Reporting Council's Ethical Standard and we as a firm, and each covered person, confirm that we are independent and are able to express an objective opinion on the financial statements. Further, we have complied with the requirements of the National Audit Office's Auditor Guidance Note 01 issued in December 2017 and PSAA's Terms of Appointment which set out supplementary guidance on ethical requirements for auditors of local public bodies.

Other services provided by Grant Thornton

For the purposes of our audit we have made enquiries of all Grant Thornton UK LLP teams providing services to the Authority. No other services were identified.

Appendices

A. Audit Approach

Audit approach

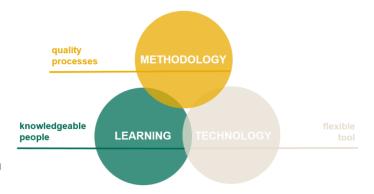

Use of audit, data interrogation and analytics software

LEAP

Audit software

- A globally developed ISA-aligned methodology and software tool that aims to re-engineer our audit approach to fundamentally improve quality and efficiency
- LEAP empowers our engagement teams to deliver even higher quality audits, enables our teams to perform cost effective audits which are scalable to any client, enhances the work experience for our people and develops further insights into our clients' businesses
- A cloud-based industry-leading audit tool developed in partnership with Microsoft

IDEA

- We use one of the world's leading data interrogation software tools, called 'IDEA' which integrates the latest data analytics techniques into our audit approach
- We have used IDEA since its inception in the 1980's and we were part of the original development team. We still have heavy involvement in both its development and delivery which is further enforced through our chairmanship of the UK IDEA User Group
- In addition to IDEA, we also other tools like ACL and Microsoft SQL server
- Analysing large volumes of data very quickly and easily enables us to identify exceptions which potentially highlight business controls that are not operating effectively

Appian

Business process management

- · Clear timeline for account review:
 - disclosure dealing
 - analytical review
- Simple version control
- Allow content team to identify potential risk areas for auditors to focus on

Inflo

Cloud based software which uses data analytics to identify trends and high risk transactions, generating insights to focus audit work and share with clients.

REQUEST & SHARE

- · Communicate & transfer documents securely
- · Extract data directly from client systems
- · Work flow assignment & progress monitoring

ASSESS & SCOPE

- · Compare balances & visualise trends
- Understand trends and perform more granular risk assessment

VERIFY & REVIEW

- · Automate sampling requests
- Download automated work papers

INTERROGATE & EVALUATE

- · Analyse 100% of transactions quickly & easily
- . Identify high risk transactions for investigation & testing
- · Provide client reports & relevant benchmarking KPIs

FOCUS & ASSURE

- · Visualise relationships impacting core business cycles
- Analyse 100% of transactions to focus audit on unusual items
- Combine business process analytics with related testing to provide greater audit and process assurance

INSIGHTS

- Detailed visualisations to add value to meetings and reports
- Demonstrates own performance and benchmark comparisons
